Red Bank, NJ 07701

Dear Peter:

I was very impressed by your skills as a mediator. I found you to be very fair and knowledgeable and you skillfully handled both sides of the discussion without being intrusive. I also appreciate your work on the more private side to resolve any impasses between the two sides.

I truly went into this mediation with a personal commitment to not spend a penny over \$75,000, and it was your artful persuasion that changed my original decision. As I think about it today, I believe the change was for the better.

Thank you again for your hard work and good luck in all future endeavors. I can't say that I hope to see you again; however, if I do, I hope it's not in another mediation. God bless.

Appreciatively,

Alex Goen
